

Does Your Business Use Technology to Accelerate Your Business Growth & Profitability?

Let Our Technology Gurus *Light Your Way* to Faster Growth and Greater Profit!

Try Our 5-Step Program to Light Your Technology Way SM

1. Evaluate...

...your current and future business needs and your current technology infrastructure

2. Report ...

...the effectiveness of the current technology infrastructure and identifiable issues and risks

3. Determine...

...with you the relative priorities of addressing identified issues and risks.

4. Commit...

...together to an action plan including dates and milestones that incorporates applicable best practices to achieve your most important business requirements.

5. Execute...

...our plan with the right combination of services for your situation. We offer a myriad of technologies and services to ensure that the solution is built around your requirements.

Some of our available services include:

- ❖ Web site development & maintenance
- ❖ Web hosting services
- ❖ Logo design
- ❖ Stationery and brochure design
- ❖ Technology architecture & design
- ❖ Technology selection & integration
- ❖ Financial Systems
- ❖ Manufacturing system
- ❖ Network Operation Centers
- ❖ E-Commerce & Financial Transactions
- ❖ Data Conversion systems
- ❖ Business Processes
- ❖ Market & Business Intelligence

There are three ways to secure the services of your gurus: 1- hourly as needed; 2-in a pre-paid monthly service package at a 20% discount off of hourly rates; or 3-in a pre-paid full year monthly service package at a 30% discount off of hourly rates. We recommend our regular monthly service packages to provide a predictable, budget-able technology investment that will help ensure that your technology is positioned to support your business growth, profitably.

Contact us today at 847-977-9051 or mari@lumatila.com.
The initial consultation (step 1 of our 5-Step Program) is FREE.

Meet Our Gurus

Lukass Franklin, Technology Guru

Lukass has over 25 years of experience in forming technologies to serve people and multinational corporations in a wide variety of situations, including

- An old testament scholar needing a word processor to write in seven different languages that read variously from right to left and from left to right in the same document;
- An interactive experiences publisher needing a new way to document and revise branched logic interactive scripts, complete with visual, audio, and stage directions;
- A world renowned data communications company needing a dependable IT employee to shepherd corporate growth from a 100 employee private company to a 12,000 employee publicly-traded international conglomerate. Responsibilities included data warehousing, ISO compliance, HR system, and ERP systems.

Solutions are dynamic and responsive to today's challenges and budgets, while positioned to accommodate new requirements and capabilities in the future.

Education & Credentials: University of Chicago, AB, with Honors; Association for Computing Machinery, Member; Extensive APICS, Project Management, Executive Management, Organizational Management and Technology training.

Mari Hoashi Franklin, Community Guru

Trained as a cultural and linguistic anthropologist, and a licensed attorney, Mari applies her over 25 years of professional and entrepreneurial experience to our work, ensuring that our technologies are designed to be relevant to the people who use and rely on them. Past projects include:

- A consumer-friendly human services kiosk designed for use by the computer phobic, the illiterate, and visually handicapped alike.
- A TurboTax®-like welfare application system that let one web-based interview fill out and submit forms to multiple public assistance programs.
- A consumer user interface integrating the emerging RFID technologies to simulate the best sales associates.

Mari's focus is to ensure that the intended user can effectively use our system without unnecessary training, while ensuring that the underlying information structure supports business analysis and additional processing required by all stake holders.

Education & Credentials: Hunter College High School; University of Chicago AB; Illinois Institute of Technology / Chicago-Kent College of Law JD with certificates in International Law and Intellectual Property Law; Licensed Illinois attorney; Trained in Target Account Selling & Proposal writing, Lexis/Nexis, Dialog, Dow Jones, DRI, ADP, SAS, ReportSmith, NOTIS, Horizon and other information and library systems.
